

Bangbe Laurent REODA

Student in Bachelor Systems and Networks, Cloud Computing

Looking for a work-study program in computer systems

Paris 15th arrondissement, Ile-de-France | 0641919593 | lbangbe@hotmail.fr
[linkedin.com/in/bangbel Laurent-reoda/](https://www.linkedin.com/in/bangbel Laurent-reoda/)

Eager to apply my network infrastructure and IT security skills within a demanding technical environment. Ready to fully commit to contributing to the performance and security of your systems, following a schedule of 1 week of school / 3 weeks of work, starting in January 2026.

Experiences

IT Technician

Teotech

09/2022 - 01/2024 ♀ Paris

- Network infrastructure maintenance.
- **Managing over 80 tickets** via HappyFox and daily remote incident resolution (TeamViewer).
- Installation and configuration of Windows/macOS workstations.
- User training and support on IT security best practices.

Network Technician (Freelance)

Offon Group

09/2022 - 01/2023 ♀ Paris

- Writing documentation (network, connectivity, DHCP).
- Diagnosis and correction of network and security incidents (Nessus Professional).

Technical Support Intern

Cedim

06/22 - 08/22 ♀ Bamako, Mali

- Management of a fleet of 20+ workstations: maintenance, updates, network optimization.
- Increased autonomy: 50% less supervision at the end of the internship.

Projects

Deployment of a network architecture

2024

Tools and protocols used: **VMware Workstation, pfSense, Windows Server** | DNS, DHCP, HTTP, ICMP

Implementation of a complete and secure infrastructure on a virtualization platform (VMware)

- Design and implementation of three network segments: internal LAN, DMZ (demilitarized zone) and simulated WAN network.
- Configuring a pfSense firewall for NAT management, routing and strict filtering rules.
- Deployment of virtual machines to simulate web servers (DMZ) and client workstations (LAN)
- Implementation of DHCP and DNS services for the infrastructure and performance of inter-zone connectivity and security tests

SKILLS

• **Systems & Networks:** Firewall (Pfsense), Active Directory, Nessus, Zabbix, Wireshark, TCP/IP

• **Scripting:** Bash, basic PowerShell

• **Incident management:** HappyFox (Ticketing)
Virtualization: VMWare Workstation, VirtualBox, Proxmox

• **BONE:** Win10&11, macOS, Linux (Debian, Ubuntu)
Development: Python, SQL Web: HTML/CSS, JS
Versioning: Git, Github

• **Soft Skills:** Good interpersonal skills, team spirit, flexibility, analytical skills and critical thinking

• **Others:** Ubiquiti, MariaDB, Office 365, Matlab, TeamViewer

• **LANGUAGES** : English : C1
German : A2

Training

Bachelor's Degree in Systems, Networks and Cloud Computing

ESGI

09/25 - Now ♀ Paris

Computer Engineering School

CESI

09/24 - 12/24 ♀ Paris

Bachelor's Degree in Systems, Networks and Cloud Computing

Fénelon SUP

2021-2023 ♀ Paris

Areas of interest

IT technical monitoring: TryHackMe, Reddit, IT-Connect, TheHackerNews...

Reading: Detective novels (Sir Arthur Conan Doyle, Patricia Highsmith, Agatha Christie) - Mangas (Detective Conan, Monster)

Music: Creating instrumental music using software (Studio) is a particularly rewarding process for me

Sports: Basketball, Street workout, Running
